

SENIOR PROJECT CONFERENCE SHEET

Name: Kalib Geiger

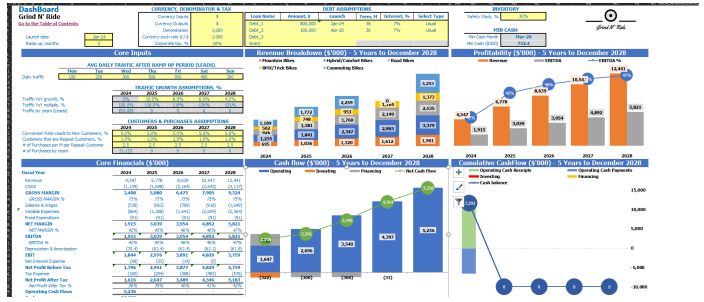

Conference Date: 1/26/2021

Project Title: Grind N' Ride

SMART Goal I set for this conference:

For January, I want to finish off my Financial statements (Market Analysis, Strategy & Implementation, Marketing Plan. If I have time I want to continue to add more stuff into the plan.

Steps I took to accomplish my SMART Goal:

STEPS TAKEN	EVIDENCE TO PROVE WHAT I DID
Continued more research to put into my business plan	
Put all information into a spreadsheet and got my financial plan completed, along with putting it into the business plan	https://www.seniorproject.kalibgeiger.com/assets/pdf/Financial%20Planning.pdf
Finished everything in my business plan except for my appendix	https://www.seniorproject.kalibgeiger.com/Docs/Business%20Plan%20REV4.pdf

21st Century skills that I worked on this month and specific ways I have improved. How have you shown growth with the goals listed above? Do you need to make any adjustments? Which skill has been the hardest for you to practice and improve? Why?:

This month I worked hard on agility and the ability to complete my financial plan along with reaching my goals. For December I had the same goal of completing my financial plan along with my other sections and I finally got it done. I learned how to make a whole workbook full of useful information to help me with my projectiles from 2024 to 2028. I would like to work more on my reaching my goals, now that I have completed everything except my appendix, I should have been more concentrated on my senior project to get it done rather than other things that may have arisen.

What I have learned since my last conference: (brief reflection on learning and evidence)

Since my last conference a lot has been done to my project. I have learned more about using excel to make charts and graphs for financial projections and where I can get research on numbers to make those projections. Looking at other local bike shops and their prices on things has helped me develop my plan and to make more accurate estimates for financial projections.

SMART Goal I am going to work on for next month:

For the remainder of my project, I plan to complete the rest of my business plan and start working on my presentation for my Senior Project.
